

There were multiple calls of burglaries in Windsor during the overnight hours of 8/27 and 8/28/2019. Vehicles were left unlocked in driveways and in most cases, garage door openers were used to open garages and gain entry into unlocked homes (unlocked doors from the garage into the home). Valuables from vehicles AND inside homes were taken. This is another reminder to PLEASE removed valuables and garage door openers from ANY vehicles left outside in driveways or on the street. PLEASE secure all vehicles, homes, sheds, out buildings, etc. on your property. We don't want you to be an easy target for criminals to victimize you! As always, if you see any suspicious vehicles or individuals, do not hesitate to contact law enforcement at the non-emergency number (608-255-2345).
